Growth in Ladderstore sees Warehouse Change

The growth in sales of access solutions provider Ladderstore, has resulted in its parent company, Wardworth Ltd, moving its warehousing and distribution operations to 3P Logistics of Warrington, Cheshire.

Wardworth cites an upturn in sales during the last year for both its Ladderstore.com and Scalesexpress.com brands for the decision to move from in-house facilities to an out-sourced solution. Gail Hounslea, Managing Director, Wardworth Ltd, comments on the move;

“Looking ahead it was clear that we would need to expand our logistics operations and continuing to retain this function in-house was not going to prove cost-effective. It made sense to find a specialist in e-fulfillment, used to large sized orders and with a proven service record. In 3P Logistics we believe we have found a pro-active supply chain partner and we look forward to working with them”.

ENDS

July 2010

N.B. Note to Editors

3P Logistics is based in Warrington, the company handles the pick pack and delivery of goods for a large number of e-commerce clients and operates from three sites in the North West of England. The company works to a service standard of over 99% of all orders delivered on time, in full.
